Collection Name

Driftwood

The Driftwood collection was inspired by stories of lost voyages, misty seas and passionate explorers. Shades of ocean greys, blacks and whites combine to create a bespoke colour range reminiscent of wood that has drifted from the far corners of the ocean, eventually stranding itself on sun baked sand and rocks. Deep, natural colour variation and a raw face texture are distinct details exclusive to the Driftwood collection available only through The Reclaimed Flooring Company. Purposefully worn, this collection encompasses a naturally weathered aesthetic representing the untamed creative spirit of the ocean. All Driftwood products display artful textures created through wire brushing techniques while still retaining a profound elegance free from ostentation. Seeking harmony with water and light Driftwood products adhere to a purity of form driven by the poetry and power of the ocean. A truly remarkable collection full of imagination, strength and enduring beauty.
