WE DO THINGS DIFFERENTLY

At The Reclaimed Flooring Company we may surprise you as we do things differently. With RFC you can look forward to superior quality, innovation, and a personalised, custom designed service specific to your needs. Like no other company, our commitment to you does not end with the sale of a panel or complete wood floor. In return for your custom, we give more back to you in value and more back to the environment.

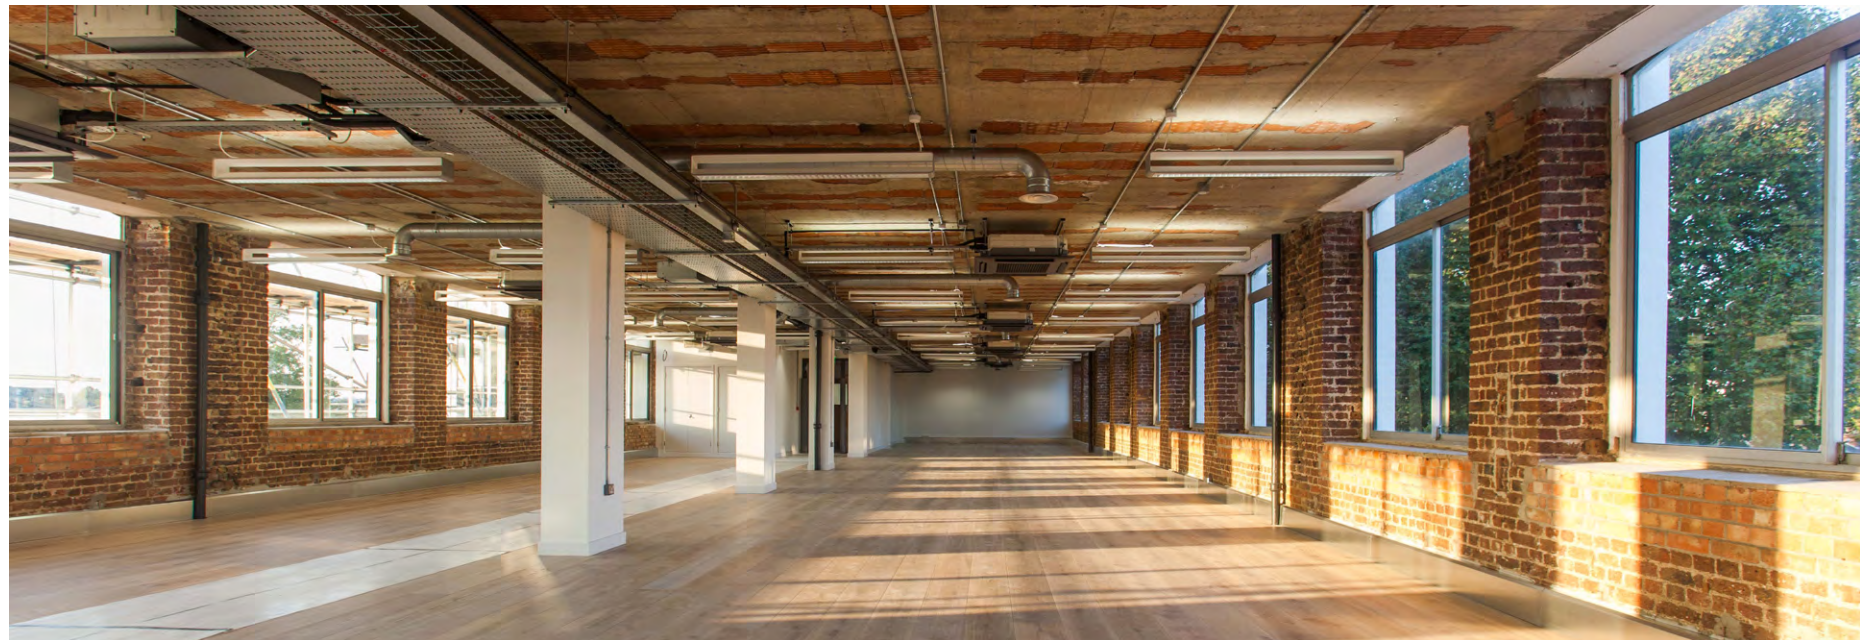

We believe all of our treasures and tailor-made creations to be pioneering vessels of creativity and craftsmanship. The methodology behind sourcing and crafting each piece of wood has been developed through years of experimentation by the collected expertise of hand picked industry professionals. We are like no other company and are the direct creators of in-house products to fit all levels of the market place.

Welcome to RFC..

10 REASONS To Partner With Us

1. **Expertise:** Our sales and design team will help you choose the perfect floor for your project, including a technical & aesthetic breakdown.
2. **Endurance:** Our exclusive 'Mountain Oak' is slower grown, durable, and extra dense for high traffic zones.
3. **Best Value:** We have a range of beautiful flooring to meet your budget and we never ever compromise on quality for mass production.
4. **Quality:** We offer the highest quality engineered boards available.
5. **Unique:** Our exclusive natural patina creations are our own.
6. **Convenient:** Engineered and solid planks and parquet with variable sizes for all types of projects.
7. **Peace of Mind:** Benefit from short lead times and the knowledge that the wood comes from sustainable forests and all products are low or zero VOC.
8. **Sustainable:** We are FSC® and PEFC-certified, with a 100% CO2 offset Timber Neutral scheme for planting trees 4 times per year.
9. **Guarantee:** With our engineered boards manufacturing is 100% guaranteed.
10. **Supply and Fit:** We offer a 100% certified and insured supply and fit service for large commercial projects.

SUB-CONTRACT WITH US!

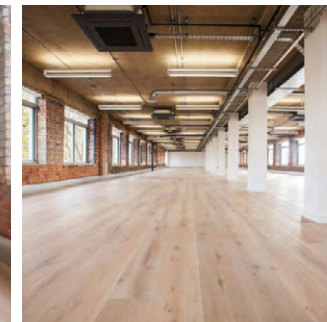

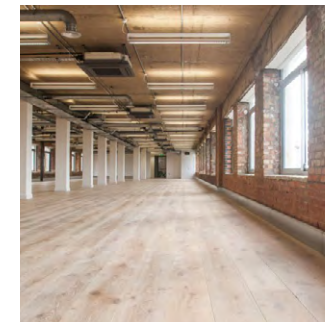

Hassle-free

Choosing the right wood floor can prove frustrating at best, even for industry specifiers and architects. There are so many colours, textures, styles and finishes to choose from that at times decision making feels impossible. Not to mention the technical specifications and project budgets.

You'll be glad to know then that we can help you solve this particular conundrum. Our experts can assist with the complete purchasing and fitting process, which means a smarter way to do business and a smoother transaction for everybody.

We've been involved in a number of city centre venues and homes, including leading hotels, office HQs, fashion retailers, restaurants, and bars. And not just here in the UK; we've also created incredible flooring, measuring from 100 to 5000m² in other capital cities around the globe.

The following case studies are a selection of our latest projects.

THE AIRCRAFT FACTORY

 **Size:** 400m²

 **Material:** Solid Reclaimed Strip Oak

 **Service:** Supply

HERE ARE SOME SURPRISING RFC SALES STATISTICS YOU MIGHT NOT ALREADY KNOW

Selectively sourced, our mountain European oak flooring is a slower grown species because of the rocky soils which have less water content. This results in a tighter grain that produces a more stable wood structure.

This wood is sourced from old structures such as train stations, Victorian homes and cotton mills. Our selection is simply unparalleled. We handpick the finest reclaimed European floorboards

9 REASONS WHY WOOD FLOORING EXPRESS IS THE SMART CHOICE

1. **Quality:** Highest quality engineering and Water and Boil Proof construction
2. **Consistency:** Consistent and beautiful floors even on a budget
3. **Express:** 5-10 working days lead time in small and large quantities
4. **Flexible:** 7 exclusive deep and natural colours
5. **Fitting:** Engineered constructions with Tongue and Groove
6. **Character:** Tactile wire brushed surface for definition
7. **Finish:** Natural matte hardwax oiled finished
8. **Thickness:** 12mm platforms with a 3mm oak lamella and 9mm of the best Water & Boil Proof engineered constructions.
9. **Best Value:** Price from £24.99 +VAT per m2*

**orders over 100m2*

London Science Museum

WE ARE THE ORIGINAL WOOD FLOORING PIONEERS OF CLERKENWELL

Based in London’s design and artisan community in Clerkenwell, we’re fortunate to count amongst our neighbours here at RFC, some of the leading architects and designers in the UK with over 2000 within 1 square mile. All within 15 minutes walk from our showroom.

Working in Clerkenwell for the last 5 years has allowed us to be at the vanguard of design as we share ideas, explore frontiers, and question the status quo. We don’t follow trends, we create them way before other companies are able to catch on.

WOOD FLOORING PIONEERS TIMELINE

"We are creatively driven specialists, creating unique client focused experiences by adding value in unique and often surprising ways. We like to be different"

Robert J. Henry
Founder & Creative Director

WE ARE YOUR DESIGN PARTNERS

We are your power supplier and design partner. We are champions of partnerships that last. Our company is driven by teamwork and we understand every project requires a unique blend of service and support.

Our approach is to collaborate rather than just sell. At RFC you are not just buying a product, you are working with the youngest and most innovative client support team in the industry.

1 x  = 10m² | A pledge to help our forests. Fulfilled with every 10M² you purchase.

**We Plant Trees
On Your Behalf**

DESIGNED BY NATURE[®] **NATURE IS UNTAMABLE AND WILD**

The wood that nature produces should reflect the trees' origins and history. And that's why our specialist patinas and custom colours are produced via exclusive organic compositions which are designed to protect.

We pride ourselves on using natural technology. This means that as your wood flooring ages you'll notice subtle changes that add to the character of the timber with each passing year.

ARE YOU READY TO PARTNER WITH RFC?

We'd love to hear from you!
