global artisans & colour specialists
A closer look designed by nature

A CLOSER LOOK
FINE FLOORING & FINISHING
TIME CAPSULE EFFECT

We create special patinas and natural colours through a variety of studied organic compositions that are exclusive to RFC.

Our secret organic formulas are designed to react with the tannin acid that exists naturally within the timber, allowing us to create a time capsule effect that speeds up the natural ageing process.

This aesthetic is achieved as the wood structures organically react and change colour within.
MEET THE FOUNDER & CREATIVE DIRECTOR

Owner and creator Robert J Henry began his journey into wood by restoring antique Victorian and Georgian pine floorboards for bespoke projects in London. Soon after, he began reclaiming beams from the historic cotton mills of Manchester, which proved to be as much about fascination as it was preservation.

From these small beginnings came an eco-epiphany and the idea of RFC took root. Collectively with his brother Thomas M Henry, RFC was founded in 2006 and a new curiosity emerged.

The natural progression from reclaimed timbers to tailor-made floorboards expanded the RFC brand to include both authentic reclaimed, replica reclaimed, and specialised new wood. An innovative range of surfaces incorporates both antique and contemporary design concepts blending rich history, new technology, and an unrestricted approach to creativity and craft.

“...THEY ALL COUNT”
The Driftwood collection was inspired by stories of lost voyages, misty seas, and passionate explorers. Shades of ocean greys, blacks, and whites combine to create a bespoke colour range reminiscent of wood that has drifted from the far corners of the ocean.

As a long-standing symbol of craftsmanship and design, there is no greater statement floor than parquet. The most popular parquet patterns are herringbone, chevron, and strip oak flooring and are all laid in individual pieces which then have a border constructed around them using the same blocks or planks that are finished in the same colour.

The inherent beauty of an aged piece of wood is central to this collection and indeed the heart of The Reclaimed Flooring Company. We see reclaimed materials as authentic and noble vessels that are based on the honesty of their origins.

Wall cladding creates an instant and unforgettable statement. Available in a variety of tones and textures, wall cladding is an easy and creative solution for any interior.

The most distinctive feature in this collection is the surface undulation typical of grand, ancient European floors. Drawing on this beauty and tradition we have created the Grande Restoration collection to embody all the elements of a truly luxurious oak floor. Small board cracks, select knots, and occasional soft band saw marks are subtle variations exhibited in this timeless collection.

Our largest selection of colours for both contemporary and antique spaces. This collection is all about personalities and the balance between the character of a colour and the interior elements that surround it. Specialist patinas created through the layering of organic compounds reveal a true depth of feeling unseen in flat commercial washes.
Based in London’s design and artisan community in Clerkenwell, we’re fortunate to count amongst our neighbours here at RFC some of the leading architects and designers in the UK, with over 2000 within 1 square mile. All 15 minutes’ walk from our showroom.

Working in Clerkenwell for the last 7 years has allowed us to be at the vanguard of the newest colouring and surface trends.
WE REALISE THE IMPORTANCE OF CONSISTENCY WITH SAMPLES, THIS IS WHY WE OFFER OUR CLIENTS THE LONGEST HAND SAMPLES IN THE INDUSTRY. 400MM LONG!

STAIRCASES & MOULDINGS
The Reclaimed and New Flooring Company realises the importance of close collaboration in all areas of project specification and design. For this reason, we offer the opportunity to customise stairs to complement or match our wood flooring.

Details:
1. Stairs and claddings are available in a variety of construction types and styles.
2. Stair material is available to match the majority of our wood floors.
3. We offer both contemporary and traditional nosing styles.
4. Stairs are either constructed using our finest engineered platforms or solid wood. Construction will vary depending on nosing types.
5. Stairs are offered exclusively to enhance floors made by The Reclaimed and New Flooring Company.

STAIRCASE AND MOULDINGS

Mouldings
Available in various moulding options, our precision milled Mouldings use the same organic compounds and treatments as our floors. By matching the patina of the floor and moulding, we can create a seamless transition in every space.
